**NovaClenz** is a highly effective and fast acting hand sanitizer, which requires no sink, water or towels.

The clear gel contains 60% Ethyl Alcohol to provide excellent antiseptic and sanitization capabilities. The formulation helps to prevent bacterial transfer including Pseudomonas, Salmonella and Staphylococcus. This helps reduce the incidence of nosocomial infections, making the gel an essential for medical and health care applications.

**NovaClenz** has been extensively tested by an independent laboratory in both in-vitro and in-vivo studies. The results showed an instant, broad spectrum, exceptionally high reduction (99.9%) of pathogenic microorganisms.

**NovaClenz**' emollient formulation eliminates the drying effect on the skin that alcohol alone would pose. Two different human skin irritation studies support this. Hands are left feeling soft and free of residues.

**NovaClenz** is a viscous gel, so it will not drip or run off the hands during use. It is conveniently packaged in a hand pump dispenser for use with or without the patented MicroDispenser™.

### Directions for Use:

1. Use no water or towel
2. Apply appropriate amount of cleaner to palm of hand
3. Rub until hands are completely covered
4. Agitate lightly until dry
5. Leave to air dry for 15 seconds
6. Do not rinse or wipe with towel

Keep away from fire or flame. Keep out of reach of children. Store below 95°F. Eye irritant. In case of contact, immediately flush eyes for 15 minutes. If irritation persists, get medical attention.

### Technical Data

- **Specific Gravity**: 0.800 +/- .01
- **pH (concentrate)**: 6.0 - 8.5
- **Color**: Clear
- **Fragrance**: None
- **Form**: Liquid
- **Biodegradable**: Yes
- **Flash Point**: 10°C (50°F)
- **Density @ 21°C**: 6.59 - 6.76 lbs/gal
- **Viscosity**: 12,000 - 22,000 cps
- **Shelf Life:** 3 years from date of manufacture
