

STERILE RED BIOHAZARD BAG, 4 MIL

Product Specification

Product Name:	Sterile Red Biohazard Bag, 4mil
Manufacturer Part Number(s):	BL4-4060REIRBB
Description:	An irradiated red biohazard polyethylene liner made from FDA compliant LDPE with "Biohazard" and a Biohazard symbol printed on each bag. Biohazard bags are designed for the collection and containment of biomedical waste. Manufactured at Micronova's Torrance, CA facility. Designed for clean and controlled environments, ISO 5 to ISO 9.
Manufacturing Standards:	ISO 9001 Certified Facility 10 ⁻⁶ Sterility Assurance Level incompliance with AAMI Guidelines for Sterilization.
Physical Data:	
Materials of Construction:	Red Low-Density Polyethylene with black printed Biohazard symbol. Meets FDA Regulation 21 CFR, 177.1520, 3.1.
Packaging Materials:	Packaged in LDPE bag, LDPE case liner. ECT rated case of 100% recycled material.
BSE/TSE Statement:	We certify that this product is manufactured without the use of raw materials of animal or human origins.
Dimensions:	Thickness: 4 mil Open Width x Height: 40 in x 60 in (100 cm x 150 cm) Flat Bottom
For Use with: (as needed)	BinLiner Stand: BLSSH-1624
Autoclavability:	Not Autoclavable
Chemical Compatibility:	Good Compatibility with standard disinfectants and cleaning solutions.
Storage Conditions:	Ambient temperature (recommended between 15°C - 30°C). Do not store in direct sunlight. Store the product in a space that is protected from extreme temperature and humidity fluctuations and away from ultraviolet sources.
Packaging Configuration:	5 liners per double bag, 10 pkgs per case, 50 ea. per case total.
Traceability:	Lot number and part numbers printed on each pack and each case.
Shelf Life:	36 months
Irradiation Standards:	Minimum irradiation dose 25kGy
Certificates:	Irradiation Processing and Certificate of Conformance shipped with each order and available on website. Validation paperwork available upon request.
