

825 Polyimide Tape

Product Specification

Product Name:	825 Polyimide Tape
Manufacturer Part Numbers:	825-12AM, 825-14AM, 825-18AM, 825-34AM, 825-38AM, 825-1AM, 825-2AM, 825-3AM
Description:	A transparent amber polyimide film with pressure sensitive silicone adhesive, wound on a plastic core. Designed for cleanroom and controlled environments.
Manufacturing Standards:	ISO 9001 Certified facility
Physical Data:	
Materials of Construction:	
Backing:	Transparent Polyimide film
Adhesive:	Pressure sensitive silicone
Dimensions:	
	Core: 3'' for standard tape
	Width of tape varies with part number
	36 yards
For Use with: (as needed)	Designed for use in cleanroom and controlled environments
Autoclavability:	Autoclavable on surfaces, not as a roll
Chemical Compatibility:	Resistant to most chemicals including hydrocarbons, alcohols, and halogenated solvents
Packaging:	Each roll of tape is processed and packaged in a Class 100 cleanroom, single bagged. Multiple rolls packaged in a poly lined box.
Standard Rolls per case**:	1/4" = 36 rolls per case 3/8" = 32 rolls per case 1/2" = 24 rolls per case 3/4" = 48 rolls per case 1" = 36 rolls per case 2" = 24 rolls per case 3" = 12 rolls per case
Traceability:	Part number printed on label and put on each outer bag Lot numbers printed on each case
Irradiation Standards:	Not irradiated
Certifications:	Certificate of Conformance available upon request
