

ISOLATOR TOOL COVER, POLYSORB IRRADIATED

Product Specification

Product Name:	Isolator Tool Cover, Polysorb Irradiated
Manufacturer Part Number(s):	ITC11-9NSIR, ITC11911NSIR
Description:	An irradiated, slip-on textured polyester mop cover to be used with QDIT or QPIT Isolator Tools. Manufactured at Micronova's Torrance, CA facility. Designed for use in biosafety cabinets, hoods, and other small clean and controlled environments.
Manufacturing Standards:	ISO 9001 Certified Facility. 10-6 Sterility Assurance Level per AAMI TIR33:2005
Physical Data:	
Materials of Construction:	ITC11-9NSIR: 100% textured polyester, No foam ITC11911NSIR: 100% textured polyester, Urethane foam
Packaging Materials:	Packaged in LDPE bag, LDPE case liner ECT rated case of 100% recycled material.
BSE/TSE Statement:	We certify that this product is manufactured without the use of raw materials of animal or human origin.
Dimensions:	2 in x 9 in (5 cm x 22.5 cm)
For Use with: (as needed)	QDIT Stainless Steel Isolator Tool with SSU series handles or QPIT Plastic Isolator Tool with STA series threaded handles.
Autoclavability:	Autoclavable
Chemical Compatibility:	Good compatibility with common disinfectants and cleaning solutions
Storage Conditions:	Ambient temperature (recommended 15°C – 30°C or 59°F – 86°F). Do not store in direct sunlight. Store the product in a space that is protected from extreme temperature and humidity fluctuations and away from Ultraviolet light sources.
Packaging Configuration:	Individually double bagged. Irradiation sticker per pack and outer case.
Traceability:	Part number and lot number on each bag and outer case
Shelf Life:	60 months
Irradiation Standards:	Minimum irradiation dose 25 kGy
Certificates:	Certificate of Conformance and Certificate of Irradiation Processing shipped with each order and available on website. Sterility Validation paperwork available on request.
